

MIDWEST LAMBOS

A NEWSLETTER FOR LAMBORGHINI OWNERS & ENTHUSIASTS

Italian Cars at Pocono

For the 19th year, car and motorcycle lovers were able to enjoy the most spectacular and largest three day Italian automotive gathering in North America. Le Belle Macchine d'Italia event, set against the majestic and serene backdrop of the Pocono Mountains of Eastern Pennsylvania provided three days of pure excitement. The first day, which was the only part open to the public was the "Concorso d'Eleganza", which was a beauty pageant of the most renowned and prestigious Italian car names: Alfa Romeo, Bizzarrini, De Tomaso, Ferrari, Fiat, Iso, Lancia, Maserati, and most importantly, Lamborghini.

The following two days were at Pocono Raceway for only the lovers, owners, and club members, by invitation only. The track event was great whether you were driving on the track or not, there was plenty of excitement; Lamborghini was even offering rides for charity in the Gallardo and Murcielago!

As in the past we were given the opportunity to meet some of the staff from Lamborghini that create these awesome automobiles, among them were Rene Sultner, James DelConte, Ehren Bragg, and special guest Valentino Balboni. As would anyone expect, this group from Lamborghini was fun and extremely pleasant to talk to, making many of us even prouder to be Lambor-

ghini owners. Lamborghini also brought with them the Murcielago movie car from "Batman Begins" which was another nice highlight to the show on Pocono mountain!

Italian Car Festival in Canton, Ohio

On Sunday, July 10th more than 60 Italian cars and 25 Italian motorcycles and scooters graced the show field once again for the 4th annual "Italian Car Festival" in Canton, Ohio. This year the event was again blessed with outstanding, if not hot, weather. The light breeze helped to cool the show field and display the sea of at least 50 Italian, Ferrari, Maserati, Alfa Romeo, Lamborghini, etc. flags and banners lining the display perimeter.

This year's Lamborghini contingent was an impressive and diverse group of cars. Steve and Arlene Comet from Novelty, Ohio took top honors in the

Lamborghini class for the second year in a row with their striking 1992 red Diablo.

Notable other Lamborghinis included an awesome 2001 gold Diablo SE owned by Earl Gibbs the proprietor of North Coast Exotics, a service and repair garage for Italian exotic cars located in Cleveland, Ohio. Pete Droese from Jefferson, Ohio who brought out his gorgeous red 25th Anniversary Countach. Norman Kent from Sewickley, Pennsylvania was back for his second year in a row with his stunning 2004 black Gallardo.

Italian Festival in Canton, Ohio (continued from page 1)

Kent made the drive once again with fellow Pennsylvanian and Italian car enthusiast Leo Rodriguez and his 1985 Ferrari 308 GTSi QV.

The Italian Car Festival also had on display an extraordinary group of vintage and contemporary Ferraris, Alfa Romeos, Fiats, Lancias, and Maseratis. The motorcycle and scooter display area as well had an eclectic selection of vintage and contemporary Ducatis, Moto Guzzis, Bimotas, Moto Morinis, Benellis, Bimotas, and Vespas. This was probably one of the largest such gatherings of Italian vehicles in the state of Ohio.

Car show participants were also seen enjoying food (pizza, sausage and pepper sandwiches, calzones, pasta, etc.) from the 50+ food vendors and entertainment from the 19th Annual "Stark County Italian-American Festival" that the car show is held in conjunction with.

"Best of Show" honors went to a very rare 1969 DeTomaso Mangusta owned by Motorcar Portfolio, a dealer of antique and classic automobiles in Canton, Ohio.

For information regarding next year's event on Sunday, July 9th 2006, please feel free to contact the event chairman:

For Sale: 1992 Lamborghini Diablo w/ 20k Miles, ZA9DU07P6NLA12662

FLAWLESS!!! THIS DIABLO HAS BEEN BABIED AND PAMPERED.

-Fully serviced from well known and respected Lamborghini mechanic George Evans of Columbus, Ohio. New clutch, chain tensioners, valve adjustment, the full engine service was done.

-The leather is perfect, not one nick, scratch, wear mark, nothing! Once a month, needed or not, a complete hand rubbed treatment of Rolls Royce hide conditioner is applied to the entire interior. I cannot put into written words how perfect the interior is, I am very particular of the condition of my cars.

-The paint on the car is almost perfect, only 3 tiny stone chips on the front spoiler keep it from being a 10 out of 10! It is otherwise in perfect condition.

-My cars are kept in a climate controlled, dehumidified garage, this Diablo was even kept up on a hoist to keep it from the concrete floor.

-The bottom of the car, wheel wells, and the engine are completely spotless; having a hoist has allowed me keep the entire car spotless.

-Just installed a stainless steel Quick Silver exhaust, the original is included with the car.

-All included: original Lamborghini car cover, toolkit, air canister, books, battery tender.

The purchase of my white Diablo roadster is the only reason this one has to go, a decision which took me well over enough to make, but I decided that I just don't need two white Diablo's.

Without a doubt this has to be one of the best condition Diablo's in America! (references available)

Please, serious inquires only. I can be reached at: 586-291-4099 -Scott

Technical Talk - Wheels & Tires

Ever drive down the interstate at 70mph and get that annoying sensation of shake and shimmy in the steering wheel of your car? Sometimes, the vibration is so apparent that the dash and seats start to shake. Wheel vibration is most typically caused by wheel and tire assemblies that are out of balance. With the ever-increasing sizes of tires and wheels, even improper mounting of the tires to the rim can cause wheel imbalance leading to vibration.

How can such a problem be solved? Using high-performance tire mounting and wheel balancing equipment in conjunction with a well-trained technician, a smooth running, and vibration-free ride can be insured.

What is high-performance wheel balancing? In the past, people went to large chain-store type tire vendors, bought their wheels and tires, had them mounted and went on their way. Often, places like tire wholesalers, large price clubs, and gas stations do not have the specialized tire and wheel handling equipment for higher end sports and luxury vehicles. Namely, the type of equipment needed is Hunter Engineering's TC3500 Tire Changer and the GSP9700 Road Force Wheel Balancer. Unless your tire and wheel outlet has such machines, do a u-turn and walk out.

The TC3500 tire mounter grabs the rim with soft, polymerized rubber mounting pads on the INSIDE of the wheel. Once the wheel is properly mounted to the machine, the tire's bead is broken using two polymer rubber wheels that ROLL in conjunction with the wheel assembly. Most chain-type tire stores use hydraulically operated steel shovels to perform the bead-breaking task. When such steel blades contact the wheel, they often ride along the edge of the rim, scratching it permanently. The Hunter unit avoids such a situation altogether by utilizing the air-over-hydraulic roller wheels. Next, the mounting head on a Hunter unit is made of the same polymer material, preventing lip damage as the beaded is rolled onto the wheel.

Regarding wheel balance, it is imperative that one uses a Hunter GSP9700 Road Force balancer. The GSP9700 utilizes two data arms that measure, exactly, the wheel dimensions. No more using a plastic caliper, measuring tape, or other crude means to determine wheel size. The computerized arms measure it to the tenth of millimeter.

Now, since the data arms are already using wheel dimensional information for calculations, rim run out, spoke location, and lateral force variation can be measured and calculated. Since spoke location is known, the wheel weights can be mounted behind the spokes so they are not even visible from the street!

Most importantly, road force balancing a wheel assembly simulates real world driving conditions because a 750lb load roller assembly is placed on the wheel WHILE it is spinning on the balancer spindle.

Photos from the field of last year's Lamborghini National Meet in Monterey

**Saturday, August 20 - The 11th Annual Woodward Dream Cruise - Ferndale, Michigan**

Mark your calendars !! The Woodward Dream Cruise is the world's largest one-day celebration of car culture that attracts over 1.7 million visitors, and more than 40,000 muscle cars, street rods, custom, collector and special interest vehicles.

Cruisers and spectators will be driving along a 16-mile route of nine communities including Berkley, Birmingham, Bloomfield Hills, Bloomfield Township, Ferndale, Huntington Woods, Pleasant Ridge, Pontiac and Royal Oak.

Although many communities host events during the preceding days and nights, the Woodward Dream Cruise officially takes place 9 a.m. to 9 p.m., Saturday, August 20.

Saturday, August 27th - Wheels of Italy - Minneapolis, Minnesota

Attention all Midwest Lamborghini owners, on August 27th there will be the annual Wheels of Italy car show held at the Lake Calhoun Executive Plaza in Minneapolis, Minnesota. Last year's event had around eight Lamborghinis but there are way more already planned for this year and they are always looking for more!

The event is FREE to both spectators and owners! Registration as well as some photos from last year's show are available on the WOI home page at www.wheelsofitaly.com

THE MIDWEST REGION OF LAMBORGHINI CLUB AMERICA

The main purpose of the Midwest region is to provide a resource for fellow Midwest owners, and to get owners together on our website, events, and other Lamborghini related interests. Until recently many of us thought that Lamborghinis in this area were extremely rare, but we are finding that there are many owners in the Midwest, we just don't know each other; an aim of this region is to change that.

Currently we are in contact with almost 200 owners in the Midwest and other parts of the country, with your help we can extend that contact base and build our community even more; please take a moment and update us with your current contact info and that of any other Lamborghini owners that you may know; see below (this information is kept confidential to Lamborghini Club America).

Lamborghini Club America would like to acknowledge the sponsorship of this newsletter by Evans Automotive, Complete Hydraulic, and Lamborghini Troy. Without their sponsorship we would be unable to provide this newsletter to Lamborghini Owners in the Midwest Region.

I appreciate your time in reading this newsletter and I look forward to meeting more Lamborghini owners!

Andrew Romanowski - Midwest Region Director of Lamborghini Club America
